Records Located on Website

If the Municipality directly or indirectly administers or maintains an official internet presence, any public records available to the general public on that internet site at the time the request is made are exempt from any labor charges to redact (separate exempt information from non-exempt information).

If the FOIA coordinator knows or has reason to know that all or a portion of the requested information is available on its website, the Municipality must notify the requestor in its written response that all or a portion of the requested information is available on its website. The written response, to the degree practicable in the specific instance, must include a specific webpage address where the requested information is available. On the detailed cost itemization form, the Municipality must separate the requested public records that are available on its website from those that are not available on the website and must inform the requestor of the additional charge to receive copies of the public records that are available on its website

If the Municipality has included the website address for a record in its written response to the requestor and the requestor thereafter stipulates that the public record be provided to him or her in a paper format or other form, including digital media, the Municipality must provide the public records in the specified format (if the Municipality has the technological capability) but may use a fringe benefit multiplier greater than the 50%, not to exceed the actual costs of providing the information in the specified format.
